What You'll Need:

- ✓ Sliced sourdough bread
- ✓ Honey
- ✓ Cheddar slices (use sharp cheddar for best contrast of flavors)
- ✓ Butter
- ✓ Any easy melting cheese of your choice

Let's Make Some Awesome Grilled Cheese!

1. Preheat your pan as you prepare all your ingredients.

2. Lay down some cheddar slices on a slice of bread (photo shows two sandwiches).

3. Drizzle in some honey, and then add the easy-melt cheese.

4. Add another slice of bread to make a sandwich and spread some butter over it.

5. Place butter side down on a hot pan over medium high heat, butter other side and 'cook' each side until well browned and cheese is melted.

6. Slice diagonally and serve up!

7. Make as much as you want or make an entire batch for everyone! You can also make this ahead of time and freeze until you are ready to heat up your pan. Enjoy!
